## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the features of claims 2-3, 15-16, 20 and 21 must be shown or the features canceled from the claims. It isn't clear from the drawings or the description provided in the specification what or where the cam surfaces are. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the Examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

The disclosure is objected to because of the following informalities. Although the specification provides antecedent basis for the subject matter of claims 2, 15-16, 20 and 21, the specification does not refer to specific reference numerals in the drawings.

Appropriate correction or clarification is required.

### ***Claim Objections***

Claims 1 and 18-21 are objected to because of the following informalities.

In claim 1, the text appears to be runon. It is suggested that Applicants' amend the claim language to clearly recite features of Applicants' invention.

In claim 18, line 13, insert - - of - - after "out" to correct a minor typographical error.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 11-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 11, line 15, "the target bore" lacks antecedent basis.

Appropriate correction is required.

### ***Response to Arguments***

Applicant's arguments submitted under "REMARKS" in the response filed on May 14, 2007 have been fully considered and are moot in view of the new rejections and objections made in this action.

### ***Allowable Subject Matter***

Claims 1-21 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, and the objections set forth in this Office action.
